Sub: THANK YOU FROM HOPE HOUSE, MANZINI

Dear Hugh Doherty & Friends,

On behalf of the Board of Directors for CARITAS Swaziland, Management, and indeed the residents of Hope House, We wish to acknowledge with sincere thanks for your generous donation of Pound 5000.00 (R.101, 273.50) to Hope House on 23rd November 2020, where we take care of the HIV AIDS and terminally ill clients.

Hope house being the only center in the country which provides such care & support we have clients from all parts the country. The donation was used for the purchase of a hospital bed, medication particularly of pain management medication, wound dressing materials and food particularly for the Cancer and HIV AIDS clients. The Hospital bed is indeed a great help for the clients who are confined to bed, those who requires regular change of positions and prop up positions to prevent pressure sores as well as to make the berating comfortable. The post COVID 19 clients who comes to us with breathing difficulty, helped to keep them propped up position.

Your donation assisted us to give a quality care to our clients. Thank you ever so much for your hard work & dedication in looking for funds to assist the poor, sick & needy. Most of the clients are on ARVs and TB medications and they need to eat a balanced diet before they take their medication. We had good many post COVID 19 clients with various complications, those had underlining complications couldn't make it, even our caritas director and one of our staff passed away of COVID 19 associated complications. The physio therapy session is helping the clients to walk back home after having disability for a prolonged time.

The clients with HIV AIDS associated with cancer are very ill and are in severe pain thus the pain management assist them to ease their pain and make them comfortable. The deep pressure sores and cancerous wound needs a lot of attention and daily change of wound dressings. The very seriously ill clients, to prepare them for a dignified death, happy going Home to our Heavenly Father. Some of them come to us in their last stages of their life to die with dignity, assisted spiritually and holistically.

Our vision is to offer the nation a sanctuary of peace of mind in their need. Our mission is to ensure that patients are prepared for their lives on earth and the world beyond. Thank you ever so much and congratulations for the gracious contribution which you made for the welfare of the sick, poor & needy clients. May the Good God bless you all, your dear ones, your ministry

& all that you accomplish. Kindly thank all those who have contributed their share in assisting Hope House. Your donations gave a speedy recovery to our clients and we were able to discharge many clients home as well as back to their work places and schools. They need to continue their ARVS so that they can live a normal way of life. The donation which you made is of greater assistance to take care of such patients who are sick, poor and abandoned. Such clients depend up on the center for everything. One of the meat Market provides the clients with meat on Mondays, thus through the generosity of good people like you, Hope House is able to give a quality care as well as a balanced diet to our clients. Our Staff are very committed, dedicated and hardworking, which contributes a speedy recovery to our clients. We have few kids who are on ART & TB medication, who are making a very good progress. Once again dear Hugh Doherty & friends thanks ever so much for assisting us to reach out these suffering brothers & sisters of the kingdom of Eswatini. Wish you all God's Blessings and every success in your mission in reaching out to the NEEDY.

Thanking you.

Sincerely yours in Christ Jesus.

Sr. Dr. Elsa Joseph MSMHC
